

Supported Learning

Providing Accredited PRINCE2™ training that you can undertake at your own pace with tutor support and great exam options. All at rock bottom prices.

PROJECT in a box
"Your own Project Support Office"

Our training partner are rightly very proud of their supported learning programmes and can currently boast 100% examination success at both Foundation and Practitioner levels!

Overview

Traditional PRINCE2™ classroom training courses can be expensive and the alternative of self study from a book can result in you missing important insights into the method. This is where the Supported Learning PRINCE2™ Programme really comes into its own.

We are delighted to be able to offer you access to this PRINCE2™ supported learning package which is provided by one of the best PRINCE2™ Approved Training Organisations (ATOs) who have trained PRINCE2™ on public courses, to some of the world's largest organisations and the world over with a consistently high pass rates.

The Supported Learning programme is designed to reflect the learning undertaken on a PRINCE2™ course, hence you are supplied with all the material you would have received on the course – PRINCE2™ Manual, Pre-Course Study Guide, CD Rom of practice questions, course folder. In addition you will receive exercises, topic questions and diagrams, which consolidate your understanding of the method and prepare you for the examination(s). Your tutor supports you through the process and provides feedback on any work you submit.

You are in control of when you choose to take the examinations, and in consultation with your tutor can design a study plan to fit around your individual circumstances. There is no requirement to undertake the examinations if you don't wish to.

Do be prepared to work hard though, it is only through a partnership approach that they can help you to fulfil your PRINCE2™ ambitions.

Study Approach

Studying alone is a greater challenge than in a supportive group environment; although the achievement of success can also be more satisfying. The Supported Learning programme bridges the gap between classroom learning and traditional distance learning.

The pack provides a study programme which you can follow at your own pace and yet have the confidence of tutor support and input. You will have your own tutor allocated to you, who will answer your questions and provide feedback to you on any work which you submit. Questions are initially submitted by email allowing the tutor to provide a written response which can be added to your study materials. If a telephone conversation is required after the initial response it can be arranged for a mutually convenient time.

Studying on your own is always more difficult, so we try to ensure you are not left feeling alone. Your tutor will be a fully qualified and experienced PRINCE2™ trainer, with an excellent track record of successfully coaching people through the examinations.

The Practitioner part of the course also has many example examination questions which you are able to undertake to prepare you for the examination. Your tutor will provide written feedback on the content, style, examination technique, case study input and any other relevant comments for each question you submit.

Compare the Supported Learning environment to Traditional Distance Learning

Traditional Distance Learning	Supported Learning
Study alone	Own study pace, but supported by tutor
Questions which arise are not answered	Questions are answered by the tutor to improve both understanding and speed of learning
Exercises do not have feedback	Full individual feedback for all exercises
Unclear when ready to sit exams	Tutor feedback on readiness for examinations
Practice Practitioner examination questions are checked by the learner against samples	Practice Practitioner examination questions are checked by your tutor with feedback about style and examination technique advice as well as content.
Study plans are not checked to see if they are realistic	Study plans can be reviewed by your tutor to check they are realistic

About our Training Partner

These Supported Learning packages are delivered by our PRINCE2™ training partner CUPE Ltd who are widely consistently one of the top ranked PRINCE2™ ATOs worldwide.

This fact is even more impressive when you realise that much of their training is to individuals where English isn't the first language an area where other training companies usually suffer.
